Environmental management statement

Callaghan Fencing & Gates recognize that our activities have an impact on the environment, and we are committed to understanding, managing and reducing those impacts in all areas of our business

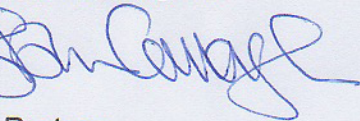

Our key commitments are to:

- Reduce the waste we produce, and wherever possible look to reuse or recycle
- Reduce our carbon footprint, by using fuel efficient vehicles, and renewable energy
- Work with our suppliers to help reduce their impact, increase efficiency and sustainability
- Reduce our water use and encourage our suppliers to do the same
- Prevent pollution to land, water, air by following approved codes of practice & COSHH guidelines
- Prevent noise pollution by monitoring levels and using noise damping tools and equipment
- Provide environmental skills, knowledge and training for employees and sub contractors

We will strive to fulfil these commitments, and to always work within the law, to prevent pollution and to promote environmental improvement in all areas of our business

This environmental management statement will be reviewed annually
